

TECHNICAL SHEET

DESCRIPTION

Snow chain with a tensioning ratchet and flexible cable for 4x4, SUV, van and industrial vehicle with a larger size link than the conventional ones.

The design and the size of the links of these chains makes it the perfect solution for rolling on snow and even mud.

The internal 16mm cable and the 4,5 mm links makes the main characteristics of this chain.

MAIN FEATURES

INTERNAL CABLE	16 mm
LINK	4,5mm
SIZES	*Según medida
WEIGHT	*Según medida
MEASUREMENTS	Desde IDLTRB-001 hasta IDLTRB-012SP3

IDEAL TR 4x4

DETAILS

LINK

Ultra-resistant 4,5 mm steel.

MATERIAL

Galvanized Steel material (Q215F) and a structure designed to give to the chain a longer life .
Rhombus mesh

TENSIONING SYSTEM

Locking guaranteed by a reinforced male / female system to prevent breakage. Manual tensioning system secured by a 100% natural rubber hook and tensioning ratchet with self-locking, which prevents the chain from loss.

PACKAGING

Resistant nylon bag

MEDIDAS

300 x 300 x 60 mm
